

Jøtul F 400 Castine

Non-Catalytic Woodstove

Jøtul's medium-sized single door, non-catalytic woodstove just got better, with enhanced fireviewing and air wash performance. Featuring meticulous craftsmanship and design, the Jøtul F 400 Castine will provide a warm, wonderful centerpiece for your hearth and home. Created by the world-renowned Red House Design, this stove has a unique nautical theme which highlights the tradition of seacoast living, a lifestyle shared by residents of Maine and Norway. We have added versatility so anyone can find a place in their home for this treasure. Options include a screen for open door fire viewing, a short leg kit for installation into an existing fireplace, mobile home approved leg bracket kit, outside air adapter, rear heatshield, and a choice of three enamel colors or Matte Black Paint.

Options
